Adult supervision is required for all activities found on HappyToddlerPlaytime.com. Rainy days bring a special kind of magic. The pitter-patter on the windows, the smell of fresh rain, and, of course, the inevitable puddle
jumping contest that turns into a full outfit change. While my kids love running outside with their rain boots on, sometimes we need a fun indoor activity to keep the rainy day excitement going. Thats where rain-themed crafts come inperfect for bringing the fun of a stormy day inside while keeping little hands busy. If your toddlers or preschoolers love
 splashing in puddles or watching raindrops slide down the window, theyll love creating their own rain-inspired art. These crafts are simple, low-mess (well, mostly), and use materials you probably already have at home. Plus, theyre a great way to sneak in a little learning about weather, colors, and textures while having fun. Perfect for rainy days
Whether the weather is too gloomy to go outside or youre looking for a fun way to extend the rain theme, these crafts keep kids entertained indoors. Encourages creativity From painted raindrops to rainbow clouds, kids can explore colors, textures, and patterns in playful ways. Fine motor skill practice Many of these activities involve cutting, gluing
or stamping, which helps strengthen little hands for writing later on. Simple and fun No complicated setups or hard-to-find materialsjust easy, engaging crafts that toddlers and preschoolers will love. At our house, rainy days can go one of two ways. Some days, its all about getting outside and stomping in puddles until our socks are soaked. Other
days, we stay inside, curl up with books, and listen to the rain while working on crafts. Theres something so cozy about creating a rain-themed project while the storm rolls outside on making their own rainstorm by flicking water off a paintbrush onto
their paper. It turned into a full-blown sensory experience, and lets just say I learned that toddlers and paintbrushes with water are a bold combination! But honestly, thats what makes these crafts funtheres no right or wrong way to create, and sometimes the process is just as exciting as the final artwork. 1. Who knows, perhaps it will develop a passion in your little one to become a meteorologist. Have
each person mark a line on a container showing where they think the water line will be when the rain stops. The person closest to the actual line is the winner. Materials needed: Popsicle stick Ruler Waterproof marker Clean, empty soup can Colorful contact paper or paintbrush, acrylic paints, and clear acrylic spray (optional) Glue Plastic bucket and
sand (optional)Lay a Popsicle stick next to a ruler, aligning the ends. Use a waterproof marker to copy the ruler markings onto the Popsicle stick. If you like, have children decorate a clean, empty soup can with colorful contact paper or acrylic paint. 4. If the can is painted.
finish it with clear acrylic spray.5. Stand the Popsicle stick inside the can and glue it onto the side of the can.6.Set the can outside in a place where it wont tip over. If you like, place the can in a plastic bucket and pack sand around it.7.After a rainfall, read the Popsicle stick ruler to see how much rain has fallen.8. As an extension you can log your
readings on a chart, calendar or in a weather notebook. 9. Pour the rain out of the can after each reading. Request the weather using instruments, etc. Brainstorm with children and prepare questions to askwhen the guest arrives. Provide tap water, soda water,
mineral water, and distilled water. Pour the different types of water into paper cups and have children taste them. Discuss the differences. As an extension you can do a survey/graph Collect raindrops into two differences about how far away you are from
a storm. What you need:One thunderstormA stop watch (Or the ability to say one-Mississippi, Two-Mississippi, Two-Mississippi, etc.) For every 5 seconds the storm is one mile away. Divide the number of seconds
you count by 5 to get the number of miles. What travels more quickly, light or sound? If you said light travels faster than sound, youre right! The lightning and thunder are happening at the same time, but light reaches you instantly, while sound takes longer. Do you ever see lightning without hearing thunder? Some call that heat lightning, but it is
it. Ask the children how the tape makes them feel. This could also be done as a group mural! (Heavy-Duty)1. Hammer nails into Heavy cardboard as a group mural! (Heavy-Duty)1. Hammer nails into Heavy cardboard mailing tubes 1/8 apart, using the spiral seam of the cardboard. 2. Add several handfuls of assorted filler material (rice, beans, etc)3. Seal each end of the tube securely with tape. 4. Decorate your stick with
raffia, ribbon, adhesive-backed shelf paper, wrapping paper or a jungle print or decorations. RAIN STICKPaper Towel Roll, Tape that can be painted, Paint, Glue, Uncooked Rice, Toothpicks. Pre-poke holes into the side of the paper towel rolls. Have children poke toothpicks through the holes and glue each end of the tooth pick. Next- tape one end of
the next step. Put the ice cubes on the plate. What happens? The cold plate causes the moisture in the warm air, which is inside the jar to condenses and forms precipitation that
falls to the ground Boil some water in a pot until steam forms above it. Fill a pie pan with ice cubes and hold it above the pot in the steam comes in contact with the cool air from the pie pan, drops of water form and fall back into the pot like rain. Kids put on rain gear and take heavy duty paper
plates outside. Sprinkle a few drops of food coloring onto plates and watch as designs appear. For a batik effect, first draw on the plate with white crayon and then add the food coloring onto plates and watch as designs appear. For a batik effect, first draw on the plate with white crayon and then add the food coloring onto plates and watch as designs appear. For a batik effect, first draw on the plate with white crayon and then add the food coloring. A couple hours after a rain fall, take children outside and have them draw on the plate with white crayon and then add the food coloring onto plates and watch as designs appear. For a batik effect, first draw on the plate with white crayon and then add the food coloring onto plates and watch as designs appear.
long word that is related to the rain (umbrella, for example) and have each player write it in the center of a piece of paper. Allow two minutes to build up as many other words as they can from the basic word. The player writh the most words wins. When
 the weather forecast is light rain, make a rain painting. Spread out a large sneet of paper before the rain begins, using bricks or other neavy objects to weigh down the edges. Fill shaker dispensers with powdered paint. Sprinkle the paint and blend the paint. After a few minutes, go out and
observe the designs the rain has made for you. Bring in the wet painting, and let it dry on layers of newspaper. Rainy days on the way? Have interested children bring a solid color umbrella. Cover floor, open umbrella, decorate each section with fabric paint or pens. Let dry for a day before closing or using. Slice an orange into 1/4 thick round slices
Cut each round slice in half -to form a half round umbrella shape. Place each orange umbrella on a small plate. Have each child choose an umbrella handle from thin sliced cheese, pretzel sticks, thin celery sticks, or thin apple slices. Materials: Sheet of white or manila oaktag (heavy paper)Art tissue paper of various colors cut up into small
piecesBlack felt tip permanent markerScissorsSquirt bottle of water Make umbrella shape templates and trace the shape on oaktag as large as you would like but no smaller than half of the shape. In a colorful arrangement, have children place pieces of art tissue all over the oaktag.
Carefully and gently squirt the papered umbrella with the water as a RAIN SHOWER. Lay it flat to to dry. As the tissue dries the colors will adhere to the oaktag. While drying, trace and cut out a handle which can be stapled to the dry umbrella. The tissue will fall off when dry. Need: Cupcake linersScissorsGlueCrayons or Paint Pipe Cleaners Cut
several Cupcake liners in half (these will be umbrellas). Glue the umbrellas onto a sheet of construction paper. Use pipe cleaner to make the umbrella handles Glue on the half. Have them glue the halves onto a sheet of construction paper. Add pipe
cleaners for handles. Draw pictures around the umbrellas with crayons or paint. Materials: Blue colored water on white construction paper or-butcher paper #1 IDEA:Cover the area and let children squirt blue colored water on white construction paper or-butcher paper around the umbrellas with crayons or paint. Materials: Blue colored water on white construction paper or-butcher paper around the umbrellas with crayons or paint.
squirt blue colored water on the butcher paper.( Itll look like rain) Write poems about puddles, mud, raindrops, or gray skies. Gather twigs, leaves, seeds, from the playground. Throw into the air to see which will float on the breeze. AFTER A RAIN gather items and toss into a mud puddle to see which will float. PLAY DRIP, DROP! PLAY THE
WEATHERMAN SAYS! The group sits in acircle. The leader starts byrubbing their hands together. The person to the right does the same, the person to the right does the same and the right does the same are rubing the rubi
END the storm, reverse the actions. At the end, the group, one by one stops rubbing hands and sits and waits for action to be completed by the group. Each person picks a raindrop wins the race. Then start at the top and do it
again! Idea:There are JOKES ABOUT WEATHER in the dramatic play area in which the children are able to be weather anchors! Some suggestions include: Largecardboard boxto be used as a large television Laminatedweather-symbols for the weather person to explain the weather (use double backed tape or roll
tape sticky side out so the symbols will stick to the weather map) Largewall map Microphone (Or use paper towel tube to create one) Paper and let the children draw their own picture of the Doppler radar picture) Staple together 4-6 pieces of paper to make a booklet for
each child. Write the words Rain Helps Things Grow on the cover of each book. Have children look through magazines and flowers. Then have them glue the pictures into their books. Tape record andidentify different sounds/kinds of rain drizzling, sprinkling, pouring,
misting, raining, thundering, lightening, hail, etc. Author UnknownIts raining, its pouring; The old man is snoring. He went to bed and heBumped his headAnd he couldnt get up in the morning. It aint gonna rain no more? Rain, rain, go awayCome
again some other dayWe want to go outside and playCome again some other day Optional lyrics: Change third line to say:childs name and childs friends name.want to play. Raindrops falling, Raindrops fallin
aglow. See the pretty flowers, See the pretty flowers, See the pretty flowers, In a row, In a ro
alternately)Down came the rain (Move hands down while wiggling fingers)And washed the spider out. (Cross arms)Out came the sun (Make a circle with arms above head)And dried up all the rain. And the eency-weency spiderWent up the spout again.
the weather like today? Tell me children whats the weather like today? (Tune: Oh Dear, What will the weather be?) oh my, what will the weather be?Oh my, what will the weather be?Oh my, what will the weather be?It will
be (rainy, cloudy, sunny, snowy, windy) today A FUN BOOK IDEA: CLOUDY WITH A CHANCE OF MEATBALLSRead the book aloud to the children draw a picture of their favorite food raining down from the sky. This could be made into a
class book. Make CLOUDS on gray paper & cut them out. Make RAINDROPS on blue paper and attach them to the clouds with string/yarn so the raindrops are falling from the cloud. Punch a hole in the cloud and tie a string to attach to then ceiling or leave as is to put up on wall. Create raindrop shaped bean bags. Paint white clouds on cardboard or
a sheet. Cut holes for the bean bag toss. Let children toss raindrops into the clouds. Ingredients: 1 c. vegetable oil6 cups flour1 cup water. Stirring as you pour. 4. Continue mixing ingredients until there is a soft dough. 5. Add a little more
water or flour if necessary.6. Put the dough on the table and knead until it is completely blended. This dough will have an oily texture. Create a wind table by taping blocks around the edge of a table. Use more blocks to form a maze inside the frame created. Provide a selection of materials for the children to try to blow through the maze; provide
straws for the children to blow through. Some suggestions would be feathers, cotton balls, ribbons, tissue paper, marbles, ping pong balls. Brainstorm with the children what other items they could try to blow through the mazeChoose a day with white cumulus clouds in the sky. Read a book about shapes in the clouds. (Book suggestions: Little Cloud
by Eric Carle; Charles Shaws It Looked Like Spilt Milk (HarperCollins, 1947) Provide blankets (to lay on outside), clip boards, blue construction paper, white construction pa
clown, angel, etc. like the book? When your next rainy day arrivescontrast these clouds to the other clouds. Materials needed: Umbrella shapes cut outgray cloud cut outs (Or cotton balls) Blue rice (use food coloring to make blue rice) GlueConstruction paper Have a children MAKE A COLLAGE with blue rice and cutouts Materials: Paper Paint Glitter,
Cotton BallSHave children draw and paint an umbrella or a picture of themselves on paper. Next have children draw and paint to make rain drops under their clouds. Sprinkle glitter on the raindrops to make them sparkle It will make a 3-D effect. Have children take a large blue piece of construction paper and draw,
color, paint a landscape or seasonal scene. Glue on clumps of white fluffy cotton ballsto create cotton clouds in any shape they want. Add a bright shining sun in the sky! craftymorning.com Make this cute paper duck a fun spring rainy day craft. Pin for Later Check out these cute rainy day activities and rain crafts that are perfect to make the time pass when you are stuck indoors. However, with a little creativity and some
basic supplies, rain can also provide a fun opportunity for crafting and learning. Rain crafts offer a hands-on way for children to explore the weather and learn about the water
cycle. They can also help children develop fine motor skills and encourage creativity and imagination. By engaging in these activities, preschoolers can gain a better understanding and appreciation of the natural world around them. Benefits of Rain Crafts and Activities Rainy days can be a bummer for preschoolers who are stuck indoors, but rain
crafts and activities can provide a fun and educational way to pass the time. Here are a few benefits of rain crafts and activities for preschoolers: Promotes creativity: Rain crafts and activities encourage preschoolers: Promotes creativity: Rain crafts and activities encourage preschoolers to use their imagination and come up with unique ideas. This can help them develop creativity and problem-solving skills. Improves fine
motor skills: Many rain crafts involve cutting, gluing, and other fine motor skills. These activities can help preschoolers develop hand-eye coordination and fine motor skills. Teaches science concepts; such as the water cycle and weather patterns. This can help preschoolers develop
an understanding of the world around them. Encourages socialization: Rainy day activities can be done in groups, which can encourage preschoolers to socialize and work together. This can help them develop social skills and learn how to communicate effectively with others. Rain crafts and activities can provide a fun and educational way for
preschoolers to pass the time on a rainy day. Afterall, sometimes kids need to just be bored! Soooooo.. Rain rain go away come again another day. You wont necessarily be singing this song after you look through some of these great activities that will hopefully entertain preschoolers and also teach them a little about rain and the atmosphere. Even
though most adults love rainy days, it can be hard on kids who just want to get outside. What can you do especially in the summertime when you need to entertain preschoolers but cant get outside? Here are some ideas for rain-themed crafts that kids can do: Rain Stick: Using an empty cardboard tube, fill it with rice, beans, or beads and decorate it
with paint or markers. When turned upside down, it will sound like rain falling. Rain Cloud Mobile: Cut out cloud shapes from white paper and attach them to a string. Hang them from a wooden hoop or a branch and add blue raindrop shapes from white paper and attach them to a string. Hang them from a wooden hoop or a branch and add blue raindrop shapes from white paper and attach them to a string. Hang them from a wooden hoop or a branch and add blue raindrop shapes from white paper and attach them to a string.
them to a window and add blue tissue paper squares to represent rain. Umbrella Painting: Cut out an umbrella shape from paper and let kids paint it with bright colors. Add a handle made of pipe cleaners or ribbon. Paper Plate Rainbows: Cut out a semi-circle from a paper plate and let kids paint it with rainbow colors. Add cotton balls to represent
clouds, Paper Cup Rain Gauges: Decorate a paper cup with markers or stickers and place it outside to measure rainfall. These are just a few ideas to get started. Have fun getting creative with rain-themed crafts! Also, dont forget to check out some cool Rainbow activities and crafts here. I hope this list of fun rain crafts and activities will keep your
little one busy until the sun comes out. Make sure to check out the sky after it rains to see if you catch a glimpse of a rainbow! Make sure to check out more spring crafts and activities before you leave! Thanks for stopping by friends! Happy Crafting! Rainy weather is a great topic to explore with preschoolers. Most preschoolers love rain watching it,
walking in it, and even jumping in puddles. Preschoolers can discover that rain provides needed water for animals and plants and other science concepts. Heres a collection of my favorite rain activities to use your preschool, pre-k, or kindergarten classroom. You can use these activities as part of a spring theme, weather theme, or just for fun.
Raindrop Suncatchers Fine Motor Art (Pre-K Pages) These Raindrop Suncatchers make a great rainy day activity that both preschool teachers and students will love! Use this idea to build fine motor skills and to create! Make an Umbrella (Pre-K Pages) This umbrella weather activity is perfect for a weather theme, or just to brighten a dreary, rainy
day. It supports both literacy and countingskills. Whats the Weather? Dramatic Play Dress-Up Center (Pre-K Pages) To teach the girls more about this topic through play, I set up a dramatic play and dress up center to play Weather Forecaster this week! Rain Process Artand a couple of other weather art activities (Pre-K Pages) You can use these
weather process art activities to explore fall (or other seasonal) themes. Exploring Raindrops and Clouds (Teach Preschool) This is a great way to explore concepts in your preschool classroom. Rain Jar (Teach Preschool) Create a little art
and work on weather themed words all at the same time. Homemade Rain Gauge (Imagination Tree) Heres how to make a really simple rain gauge using recycled materials, for somerainy day fun! There are plenty of opportunities for learning about measuring, number recognition, capacity and weatheralong the way too! Rain Cloud Spring Science
Activity (Little Bins for Little Hands) Heres how to make a really simple rain gauge using recycled materials, for some rain! How Does It Rain? (Learn Play Imagine) In this fun rain science experiment, your preschoolers can learn how to make rain! Rain Cloud Suncatcher
(Preschool Inspirations) Kids can make a fluffy rain cloudsuncatcher craftto celebrate April with their own rain shower. Rainy Day Fun Science Experiment (Mom with a Lesson Plan) Homemade Rainsticks (Mama Papa Bubba) Recycle some household materials to make your own rainsticks. Sun and Rain Sensory Bottles (Creative Family Fun) With a
little gold glitter you can easily create these fun sun and rain sensory bottles. Rainbow Rain (Kid Minds) Imagine if rain came in a rainbow of colors? That was the inspiration behind this Rainbow Rain (Kid Minds) Imagine if rain came in a rainbow of colors? | Amy Gibson Pignic Matt Phelan Who Likes Rain? Wong Herbert Yee Share the wordless picture book Rain by Peter Spier. After picture walking through the book and discussing all the events illustrated, challenge kids to come up with one or two sentences to tell the story for each page as you water play, fill a water table or plastic tubs with water. Offer a variety of plastic containers and toys to fill, pour and float. For an outside sensory experience, have children work in the mud. Provide toy vehicles, shown and float.   |   |
| fictional story about the rain that you have previously read. Ask kids to then act out the story with puppets. Discuss different emotions and how those can be expressed on faces without saying a word. Challenge kids to act out a weather event, such as a thunderstorm approaching, showing emotions and how those can be expressed on faces without saying a word.  | tions through their actions and facial expressions only. If     |
| you are wondering how to explain rain to preschoolers, here is a fun way. Fill a wide-mouthed clear jar about full of water to represent the air. Spray shaving cream into the jar over the water so that it mounds a bit out of the top to represent a cloud. Using a pipette or dropper, squirt liquid blue shaving cream several times. Watch as the blue seeps through the cloud after it becomes saturated and into the air as rain! Complete as a group or with each child having their own jar for the experiment. Instead of shaving cream, you can also place a sponge over the jar mouth to use as the cloud after it becomes saturated and into the air as rain!  | oud. Here are some more fun water experiments for               |
| preschoolers. Teach kids about the water cycle with this cool activity: With a black marker, draw a sun and clouds near the top of a small, sealable plastic bag and a water line of waves about an inch from the bottom. Fill the bag up to the water line with water that is coloured blue with food colo bag to a window in a sunny location. The heat from the sun eventually makes the water evaporate and condense near the top of the bag by the clouds. After condensing for a while, the water droplets slide down the sides of the bag back to the bottom as rain. Share the picture book Raindrop, Plo  |   |
| count along with you while reading and retelling the story. Heres a practical way to teach kids about measurement. Cut the top off an empty and clear 2-litre soda bottle about five inches down. Children fill the bottom with pebbles covered by water and draw a line with a black marker at that lever the countries are not seen that the countries are n | evel. Then have kids hold the ruler to measure one              |
| centimetre/inch at a time, while adults label the increments with the marker. Invert the piece of the bottle that was cut off and place it into the opening. Set the rain gauge outdoors in the open but where wind and overhanging vegetation do not affect it. Observe the gauge after a rainstorm to see news/weather together and compare your results to the official rainfall readings. On a warm, rainy day with a walk outside, using all senses to experience the weather. Who can see a rainbow? On a warm rainy day with a walk outside, using all senses to experience the weather.  |   |
| n the rain, either with rain boots or with bare feet. They will love it! With a rain theme, preschool children can learn more about the science and necessity related to this form of precipitation. They can also learn to appreciate all the sensual beauty of winds, showers and rainbows! I hope you've  | enjoyed these rain preschool activities. Looking for more       |
| deas? Check out these themes for preschoolers. Are you planning a weather unit for your kids or students?
